

Pre-Medical Course Timeline by Major

This document is meant to serve as a guide to see which prereqs your major already includes and how to plan prereqs that are not covered. While you **do not** have to follow this plan exactly, it is a great base on how to plan out your courses. Since each situation is different, you **MUST CONFIRM** your plan with your academic and OPSA advisors. Additionally, if your degree is missing prereq courses, they have been included in addition to the courses required to satisfy the graduation requirements for your major.

NOTE: ***The medical schools do not have a preference of one major over another***, so choose a major that interests and academically challenges you. With this, if you do not see your major on this list, talk to an OPSA advisor for further assistance.

Prerequisites for Texas Medical Schools

- English (6 hrs. - from any class taught in the ENGL dept)
- Statistics (3 hrs. - BMEN 250/350, BUSN 203, INFO/SCMT 303, STAT 201, 211, 301, 302, 303 or 312, PHLT 315, or PSYC/PBSI 203, 301)
- Introductory Biology w/lab (BIOL 111 & 112)
- Upper-level Biology (6 hrs. - refer to your degree plan; research [TMDSAS for approved courses](#))
- General Chemistry w/lab (CHEM 119 & 120, or CHEM 101/111 & CHEM 102/112)
ENGR students take CHEM 107/117 in place of CHEM 119
- Organic Chemistry w/lab (CHEM 227/237 & 228/238)
- Physics w/lab (PHYS 201 & 202)
- Biochemistry** (3 hrs. - BICH 409, 410 or BICH 489: SPTD Principles of Biochemistry)

All pre-requisites & information are subject to change at any time. It is the responsibility of the applicant to stay up to date on all requirements.

TCU requires genetics and physiology.

**For schools where Biochemistry is not a prerequisite, Biochemistry 409 & 410 will fulfill one of the Upper-Level Biology requirements with the exception of John Sealy SOM-UTMB & UT Southwestern).

Some out of state institutions and Baylor College of Medicine requires additional courses. Refer to their specific website for detailed information and contact them by email with any questions specific to their course requirements.
